3. Classroom Order and Guidance:

At ATA-WA our goal is to create an interesting and exciting learning environment where children can learn and experience about Turkish Language and culture. “Rules” are established only to provide safe and fair guidelines in which children may participate equally and freely.

Adult supervision and guidance are always available. Guidance techniques are positive, fair, consistent and related to the child’s behavior and individual needs. We seek to avoid behavior problems through reinforcement of appropriate behavior, offering positive alternatives to misbehavior, redirection and continual teaching of the tools, which provide for self-discipline. Corporal punishment is never used.

4. Illness:

Children must be well enough to participate in all activities while at school, including outside play. Parents will be called to come and sick children should be taken to home as quickly as possible.
